

# **AERO-MARINE TECHNOLOGIES, INC.**

*When Service and Experience Matter*

## **Did You Know?**

A large part of vacuum generator overhaul costs is the repair and restoration of parts due to **DRY STORAGE DAMAGE**. Corrosion begins with contamination during on-wing operation. This damage continues even after the unit is removed from service.

Our receiving procedures prevents further **CORROSION DAMAGE**.

The sooner we receive your vacuum generator after removal from service, the less dry storage damage will occur, preventing unnecessary repair costs.

For the safe removal and shipping of your units. Aero-Marine Technologies provides a Vacuum Generator Removal Kit with every return order. We can provide these kits in advance upon request.

Aero-Marine Technologies specializes in the maintenance and overhaul of the most common vacuum generators including:

**606802-2**
